CATALOG

SHAKIN' NEKO CRAW®

"The Culprit Shakin' Neko Craw creates a whole new Shakin' category, the first of its kind for use in finesse applications of Neko rigging, Shakey Head, Wacky rigs, and even trimmed down for Ned rigs. When rigged Neko style, each twitch of the rod produces an action much like the tail of a crawfish as it scoots in short bursts on the bottom. There is even a built-in groove to securely hold an O-ring, popular with Neko and Wacky rigging."

Dustin Wilks

This slender crawfish imitation is specifically designed to mimic the natural movements and fall of a small crawfish. The unique profile allows for a reasonable fall rate even with light weights necessary for Neko rigging. This bait can be successfully deployed in shallow and deep water.

While deadly during the spring, this bait excels no matter the season for anglers looking for an edge over the traditional straight worm profile often fished on Neko, Shakey and Wacky rigs.

Shakin' Neko Craw®

INCREDI-FROG™

The *Incredi-Frog* features incredibly easy casting and leg action imitating a fleeing frog. The body has tapered edges and a dense shape to make it heavier and more aerodynamic and provides the ability to slide in, out and through pads and other thick vegetation without hang-ups. The unique hook-pocket enables easier hook-ups and the ribbed belly provides a smoother pull across vegetation. The muscular legs crank out a powerful churn with the retrieve that will surely grab the attention of big bass anywhere near the area you cast. This heavily-constructed body outlasts other frogs through heavy use and multiple fish catches without having to re-tie often.

This 4-inch bundle of energy is the perfect frog lure and is available in a great spectrum of fish-catching colors to match-the-hatch or create just the right amount of attention under any fishing condition.

FAST VIBE™

Designed to cover water with a nice tail-kicking action, the 6" *Fast Vibe* can be buzzed on top or slowly reeled below the surface. This bait holds the hook well and excels around weeds and shallow cover.

Use a light weight 1/32- or 1/16-oz. for buzzing and 1/8- or 3/16-oz. for covering flats and dropping into cover. Rig with 3/0 or 4/0 hook.

T-REX™

Featuring amazing twitching action, the 6" *T-Rex* is typically used without weight and on top, occasionally allowing it to sink seductively in hot spots to create a predatory strike. The perfect combination of length, shape and body-weight density make this lure come alive in the water.

When Texas rigging, use a 3/0 or 4/0 hook, counting the bait's top ridges in order to place the hook-point in the perfect spot.

SKINNY JERK™

Thinner and longer than most jerk baits, *Skinny Jerk* was designed to hook fish easier and have a nice crisp action with more movement. This bait has an easy "s-curve" swimming action that draws attention from any hungry fish. Featuring a hook channel to further reduce body thickness and provide the ultimate in easy hook-sets.

Use weightless with small twitches to bring this bait alive in the water. Also works great with a scrounger head, underspin and many other set-ups.

FAT MAX™

A fatter, thicker bait with the styling of *The Original Culprit Worm*. The specially-designed tail "thumps" through water and cover calling bass to dinner. A great flipping worm but also works well in open water, dropping into strike zones during the retrieve. The extra body bulk aids in longer casts and penetration through vegetation. The wider tail generates a larger flash visual and louder call to action for wary fish. This popular new generation of the original is available in 6- and 7-inch versions with a great selection of proven colors.

Dustin Wilks

Elite Series Pro & 7x Bassmaster Qualifier

"I've wanted a worm like this for a long time. One that could be used in many ways, but especially shallow water flipping where most anglers are using jigs and creature baits. The Fat Max is bulkier than a standard worm and has a tail design that does not wrap around cover, making it the ideal heavy cover flipping worm. This worm gives me a distinct advantage over my competition."
